Dear Sir or Madam:

I am writing to let you know that I recently purchased 2 more of your infamous travel suits from the Limited. I had previously purchased 2 in solid colors and was delighted to find out that new styles and colors recently came available. I first discovered the travel suit about a year ago through an advertisement I received in the mail from the Limited. I have to admit, I was a bit skeptical about the quality and feel of a suit that could be thrown from the washer to dryer and look amazing. Well let me tell you, these suits are the most versatile and easy to care for suits I've ever owned. As a busy sales professional, I'm constantly on the run or traveling 30% of the time and am so happy I was able to find business suits that at the end of a long day look just as crisp and clean as the moment I put them on. Your suits have also saved me a great deal of time and money since they are machine washable and safe to put in the dryer. I personally would like to thank you for creating the best business suit in the market and for helping me look my greatest at all times!!

Sincerely,

Anna M. Sless
